2005

Kovohutě Příbram nástupnická, a. s.

Metallurgical plant for silver and lead production Success base = 700years metallurgy tradition

3

Basic information (year 2012)

Production:

41,495 tons of clean lead (45,348 tons of crude lead)
from 58,975 tons of lead wastes
12 tons of precious metals

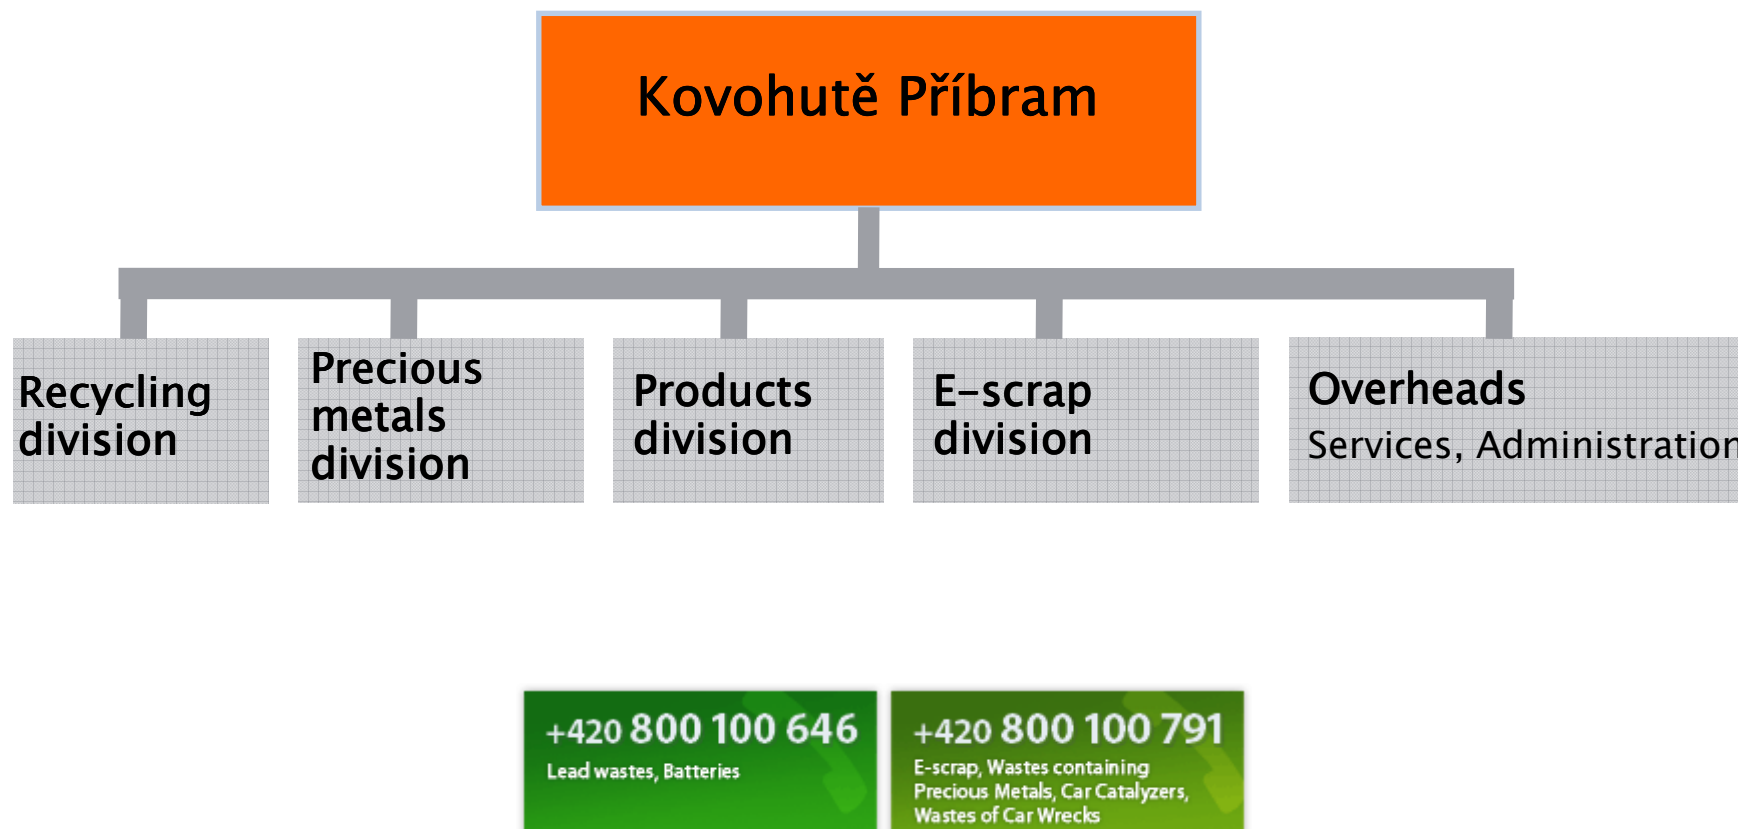

Turnover:

2,036 m CZK
80 million EUR (exchange rate 1/2013)
106 million USD (exchange rate 1/2013)

Employees:

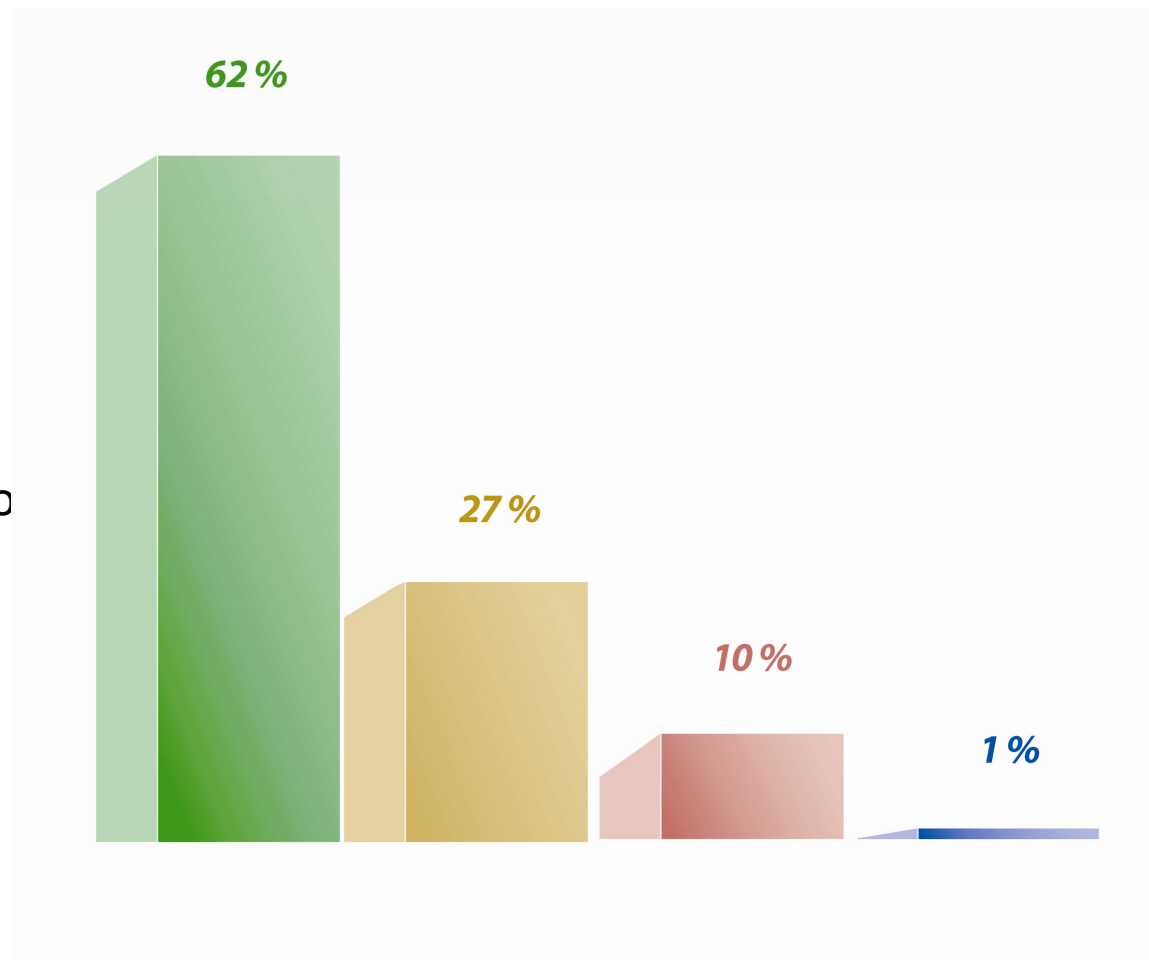

261
67 white collars of all

Organisation chart

Division share on sales in 2012

- Recycling division
- Precious metals divisio
- Products division
- E-scrap division

Recycling division (lead)

The Recycling division purchases and recycles lead waste (lead batteries). The production of this division consists of lead and its alloys in ingots. Lead is recycled and produced in blast furnace and rotary furnaces and then refined. This division recycles classic zinc and alkaline batteries as well.

Lead wastes, Batteries

Products division

The Products division focuses on manufacturing and selling a wide range of products based on lead, tin, antimony and other non-ferrous metals. The entire range, with approximately 2,000 items, can be divided into four groups – soft solders (lead-free and lead), cast alloys, products and semi-products made of lead and air gun ammunition.

produkty@kovopb.cz

E-scrap division

The E-scrap division ecologically processes electrical devices taken from users and separately collected e-scrap (WEEE). The synergy of recycling activities – 3 recycling divisions.

XANTYPA

Kovohutě Příbram is the editor of the magazine Xantypa (www.xantypa.cz; sekretariat@xantypa.cz) – a media partner of The Czech Olympic Committee.

Integrated Management System (IMS)

- Quality
- Ecology
- Health and safety at work

Quality

Kovohutě Příbram ensures the highest quality of all its activities by a proven quality management system, according to standard CSN EN ISO 9001:2008, which is certified by TÜV NORD.

CERTIFICATE

Management system as per
EN ISO 9001 : 2008

In accordance with TÜV NORD CERT procedures, it is hereby certified that

Kovohutě Příbram nástupnická, a.s.
Příbram VI. č.p. 530
261 81 Příbram
Czech Republic

applies a management system in line with the above standard for the following scope

**Production of lead and its alloys by wastes recycling.
Production of precious metals by wastes recycling.
Production of products from lead, tin and their alloys.
Recycling of waste from electrical and electronic equipment.**

Certificate Registration No. 04 100 990462
Audit Report No. 623 417/429

Valid until 2011-06-29
Initial certification 1999-04-01

Certification Body
at TÜV NORD CERT GmbH

Prana, 2010-06-04

This certification was conducted in accordance with the TÜV NORD CERT auditing and certification procedures and is subject to regular surveillance audits.

Ecology

To systematically minimize the negative impact of corporate manufacturing equipment on the environment, the company has introduced an Environmental Management System (EMS), according to CSN EN ISO 14001 (TÜV NORD).

IPPC – integrated licence to 31.12.2018

Specialised waste management company

Kovohutě Příbram was the first company in the Czech Republic to obtain a certificate acknowledged throughout Europe in June 2003 together with recertifying EMS.

Health and safety at work

The company has repeatedly acquired (in 2000, 2003, 2007 and 2010) the “Safe Enterprise” certificate. This is a program that is based on proven approaches of industrial developed countries. The quality and level of the labour safety management system in the company is confirmed by OHSAS certification and a Health Promoting Enterprise certificate (in 2007 and 2010) as well.

Certificates – summary

- Quality system according to EN ISO 9001:2008
- Environmental management system according to EN ISO 14001:2004
- Safety and health system according to BS OHSAS 18001:2007
- Safe enterprise
- Health Promoting Enterprise
- Waste disposal company (according to Entsorgungsfachbetrieb standards)
- Accreditation of testing laboratory according to CSN EN ISO/IEC 17025:2005

Ecological services of company

- **Purchase of lead car-batteries**
from citizens 24 hours a day and 7 days a week (**non-stop**) at the gatehouse of company (actual purchase prices in internet)
- **E-scrap**
collection point of e-scrap in the company area Kovohutě Příbram – **24 hours a day and 7 days a week (non-stop)**
- **Precious metals wastes recycling**
gold, silver, palladium, platinum
- **Waste materials from car-wrecks purchase and recycling**
car-catalyzers, car-radios and control boards, printed circuits, cables and spools, lead car-batteries and e-scrap
- **Collection of another wastes – recycling**
collection and recycling batteries–dry cells (ZnC, Al) as well – in Kovohutě collection point
- **School Project**
cooperation on the field of ecology and wastes; fight against crime too
„Football against crime“ from 08/09 (football club 1. FK Příbram and Town Příbram) – other sports, culture, etc. = new „Chance for every one“ from 09/10

The mission of the company

We provide environmental-friendly services with

- > lead wastes
- > precious metal wastes
- > e-scrap (WEEE)

with the best available recycling technologies.

We are a traditional and trustworthy supplier of products and alloys based on lead, tin and precious metals.

Our goal is to achieve the leading position as a regional employer.

CSR conduct – our advantage
